This week: decimal computation concepts (addition and subtraction)

I completed a TenMarks assignment last night.

Place a ✓ next to the best estimate for the value of the unknown in each equation.

$9.06 + 8.25 = f$ ___ 1 ___ 13 ___ 17 ___ 1,700

$1.8 + 7.23 = b$ ___ 5 ___ 9 ___ 13 ___ 720

$23.1 - 6.91 = w$ ___ 16 ___ 25 ___ 30 ___ 46

Find the sums and differences.

$3.3 + 3.83 =$

$7.75 + 5.9 =$

$7.18 - 1.98 =$

$3 + 7.26 =$

$7.01 - 0.08 =$

$5.15 - 2.6 =$

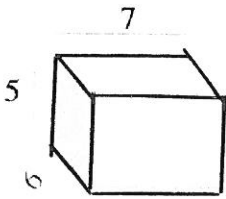

Find the product of the whole number and mixed number. Do at least one.

$$3 \times 4\frac{5}{6} =$$

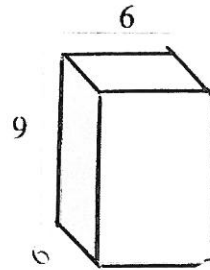

$$2\frac{4}{9} \times 5 =$$

Find the volumes of the figures.

1)

2)

Find the quotient.

$$517 \div 6 = \underline{\hspace{2cm}}$$
